مدير عام التخطيط والتطوير المؤسسي

تحية طيبة وبعد...

إننا في شركة راي كونسالت (RAI CONSULT) نقوم حاليًا بعمل دراسة متجنية لصالح مركز العمل التنموي معًا بالشراكة مع منظمة أوكسفام، وذلك ضمن مشروع تعزيز الصمود الاقتصادي في قطاع غزة الممول من الاتحاد الأوروبي. تهدف الدراسة لرصد أهم المخاطر المتصاعدة بالقطاع الزراعي وقطاع السياح وقطاع الخدمات اللوجستية وتحديد المناطق المتأثرة بها ومن ثم سيتم اختيار واستهداف بعض المجتمعات السكانية الأكثر المتأثرة من خلال تقديم تدريبات مهنية وتوسيع لمشاريع صغيرة قائمة أو متوسعة.

وأخذ قام الفريق الاستشاري بعمل مسح موسع للقطاع الزراعي والاقتصادية والتأهيلية إضافة إلى التحديات التكنولوجية التي تلحق حاليًا أمام تطور هذه القطاعات الاقتصادية. وبشكلًا للخطوة التالية من الدراسة وهي تحديد الأماكن الجغرافية التي تتأثر بهذه التحديات ويجب أن الطريقة المثلى في الوصول لهذه البيانات من خلال البيانات بحيث يتم تعبئة استمارة مخصصة من قبل كل بلدية على حدة مما سيساهم في توفير مؤشرات آلية لاختيار المناطق المستهدفة لتقديم الخدمات والدعم في مرحلة المتابعة من المشروع.

بناء على ذلك نرجو من سيادتكم تسهيل مهمة قنا في الوصول للبيانات من خلال:

- تزويدنا بتقسيم الأحياء الموجودة ضمن قنود كل بلدية لمساعدتنا في إعداد الاستبيان
- مشاركة نموذج الاستبيان مع البلديات

وتكدي وأثر الشكر والتقدير.

Section 2: Services Terms of Reference (ToR)

1- Project Background

Ma'an Development Centre in partnership with Oxfam is implementing the EU-funded project entitled "Building the Economic Resilience for the Gaza Strip", which aims to enhance the economic resilience of vulnerable economic groups in the Gaza Strip affected by recurrent political and economic shocks, including the impact of the COVID-19 pandemic. The project is a 42-month project, starting in 2022.

The target groups and activities are varied but mainly the project seeks to target 350 new graduates, women, men, and skilled and unskilled workers, of which 150 persons will receive internship/apprenticeship opportunities for 5 months, and another 50 interns/apprentices will get vocational, of whom 40 will be subjected to remedial training. The project is extended to support 20 SMEs to build support plans, provide 10 matching grants, develop 5 scale-up business models for non- agricultural SMEs, and provide seed funds to support 5 innovative ideas/initiatives that promote WEF and green economy. Also, the project aims to strengthen the local communities strengthened to address community risks, planning, and coordination. Local livelihood actors would mobilize and facilitate the set- up of an emergency livelihood preparedness and response coordination committee to jointly develop/update existing capacity-building packages for emergency livelihood preparedness and response in vulnerable communities.

Furthermore, under this ToR, Ma'an is seeking qualified candidates to conduct a study to identify livelihood groups that are more vulnerable to acute crisis followed by a rapid geographical mapping to identify the most vulnerable communities to be targeted to strengthen the capacities of local communities in addressing community risks, planning, response, and coordination.

2- Description, Objective, and Scope of Consultancy

The objective of the assignment is to identify the livelihood groups most vulnerable to crises including pandemics. The study has to focus on:

- A. Mapping out and prioritizing the main hazards and related risks that undermine the economic resilience in the Gaza Strip,
- B. Mapping out the livelihood groups (men, women and youth) who are most affected by the identified hazards and identifying their related vulnerabilities, and
- C. Identifying three local communities where the identified most vulnerable groups have been living.

The assignment should focus on the project-targeted economic sub-sectors including agriculture, textile, and logistic services.

The study should give answers about the livelihood status in the vulnerable communities in terms of the size and status of community assets (including both material and social resources), capabilities, system and structure, access to livelihood opportunities and influence systems, and several potential shocks, and livelihood coping strategies. A description/analysis of the identified three communities is required.

To accurately identify success areas within the submitted technical proposal, the technical proposal answering this ToR should include:

A. Clear understanding of the livelihoods' vulnerability in the Gaza Strip as well as economic challenges in the Gaza Strip.

a) Identification of livelihood hazards and significant variables (physical, natural/climate change, human resources, financial and social variables).

B. The identification of key assessment stakeholders which include key anticipated relevance to the mapping exercise, i.e., the municipality representatives who can identify key challenges facing business owners.

C. Clear presentation on utilizing the different assessment tools, i.e., KII, Groups Interviews, FGDs.

D. Clear identification of milestones under this assignment, and presented in an efficiently planned and cost-effective manner

3- Expected Outputs and Deliverables:

A. Inception report, based on the recommendation from the inception meeting's feedback which will be provided by Ma'an Program Management Unit, M&E department, and Technical Specialists to inform the development of the inception report. The inception report should include:

- A summary of the context,
- The scope of the analyses,
- A revised-detailed methodology of the proposed risk and vulnerability assessment on key economic sectors to be used as agreed upon by the initial scoping with key sector stakeholders and based on the initial review of data.
- An overview of KII and other assessment tools including the forms and validated interviews guidelines,
- The tools that will be used with communities for identifying the vulnerability criteria to identify the three localities based on the validation of mapping criteria against secondary and cluster data.
- Timeline of activities that will be implemented under the rapid geographical mapping with key activities above mentioned in addition to a detailed description of the consultant's anticipated relevant activities.

B. Draft final report illustrates a concrete set of evidence-based recommendations to prioritize the interventions and community selection justifications.

4- Qualification and Experience of a consultant

The consultancy team ought to include expertise in the field of livelihoods protection and development, disaster risk reduction, social inclusion, and data analysis; with a proven record in the development and implementation of the related mapping exercises. The team members should have the following minimum qualifications:

- Academic qualification in relevant fields. A Master's degree and above is a credit.
- At least 5 years of related experience.
- Demonstrated experience in resilient livelihood models.

- Good reporting, and communication skills, with specific reference to analytical reports and studies.
- Ability to develop concrete methodology and timeframe for delivering the required consultancy service within the specified duration.

5- Timeframe

The assignment shall last about 34 days, starting from November 2022 to January 2023. The timeframe of the consultancy service may be amended based on field results and circumstances, so the consultant should be flexible with any changes.
